international travel cannot be excluded.

- Consumers should discard the product and not consume it.
- CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary.
- Investigation by CFS is ongoing.
- *Bacillus cereus* is commonly found in the environment. Unhygienic conditions in food processing and storage may give rise to its growth. Consuming food contaminated with excessive *Bacillus cereus* or its heat-stable toxins may cause gastrointestinal upset such as vomiting and diarrhoea.
