Position of CFS	<ul style="list-style-type: none">• Information on product distribution outside the US is not available from the website of the FDA. The Centre for Food Safety (CFS) is investigating whether the affected product has been imported to Hong Kong and is contacting the relevant authority for further information. Preliminary investigation did not identify local sale or import of the affected product.• Acquisition of the product through online purchase or international travel cannot be excluded.• For some people with certain underlying conditions, too much sugar can lead to serious health problems. Such consumers should not consume the concerned product.• CFS will remain vigilant and monitor for any new development and take appropriate actions when necessary.• Investigation by CFS is ongoing.
