

《食物內防腐劑規例》(第132BD章)的建議修訂公眾諮詢
From: "Shuk Bing Caroline Ho (MFPC (TP FTY NO.3) - OFFICE)"
<@maxims.com.hk>

Dear Sir / Madam,

Here below is the list of comments from manufacturing and sourcing 《食物內防腐劑規例》(第132BD章)的建議修訂公眾諮詢

Please consider :

1. Still not clarify the Multifunction of preservatives & limits on different multinational food groups
2. Still not clarify and not clear the impact for different multinational food groups.
3. Need more technical education and clarification for compound and multinational food group.
4. The impact of shelf stable and frozen pre-pack foods are high, need longer time of grace period **e.g. grace period at least 3 years** for communication with many levels of supply chain and oversea manufacturers / supplies for preparation, and may need to change formulation.
5. Impact of different local and oversea manufacturing and supplies are not clear. Communication, assessment, replacement and re-formulation time are unknown.
6. Naturally present sulphites and limit for labelling are still not clarified, naturally present is not added, no function applied.
7. Q&A is not enough

Regards,
Caroline Ho
